

# Conveyor safety

Familiarize yourself with using the lift beforehand and pay close attention to the following instructions

1

## Look and wait

Move up to the marked line  
Wait your turn

Secure any loose items

Remove pole straps

2

## Load and stand

Carefully step onto the conveyor until your boots are on board

Remain standing at all times

3

## Unload and leave

At the unloading area, raise your pole and the conveyor will end allowing you to clear

Follow directions
